Detroit Engineered Products (DEP) hosted an Engineering Service Providers (ESP) Conclave in three major Indian cities

Detroit Engineered Products (DEP), the creators of MeshWorks, an integrated CAE platform, is delighted to announce the successful conclusion of the Engineering Service Providers (ESP) Conclave. The event centred on the theme of “Achieving Engineering Efficiency with the latest in CAE technology” was conducted in three major cities - Pune, Bangalore and Chennai. The primary objective of this gathering was to deliberate strategies for enhancing revenue and productivity, reducing operational costs, and ultimately boosting profitability. It was attended by industry experts, professionals, and thought leaders who convened to explore and deliberate on the latest trends, innovations, and opportunities from reputed companies like Tata Technologies, L&T Technology Services, Wipro Technologies, Hepatica, IDIADA, ARAI, Valeo, Axiscades, Alten and others.

DEP significantly enriched this gathering of professionals who share a common purpose, establishing themselves as a prominent industry leader and influential figure. The event served as a valuable platform for participants to delve into an array of cutting-edge topics with the aim of enhancing engineering efficiency and fostering business expansion. The intention behind organizing this event was to offer a unique chance for participants to network, collaborate,

and share ideas with peers and visionaries who are driving innovation in the engineering landscape.

Highlights of the Event:

- How to reduce engineering time by utilising cutting-edge CAE technologies.
- Maximize the ROI on each project
- Grow the business rapidly by moving up the value chain
- Strategies and techniques to reduce and optimize software budgets using DEP MeshWorks

Radha Krishnan, Founder and President of Detroit Engineered Products (DEP) said, “We are thrilled to have successfully concluded our series of Engineering Service Providers (ESP) Conclaves across India. Our ability to bring together professionals from diverse regions and facilitate dynamic knowledge exchange across three cities has been truly gratifying. This event underscored DEP’s dedication to advancing the CAE sector, while also nurturing connections and knowledge sharing. Our unwavering commitment to innovation, collaboration, and excellence in engineering services remains our top priority. We eagerly anticipate building upon the momentum generated by this event and propelling constructive transformations in our industry.”
